

It is an outrage that Sinclair has the gall to preempt prime time television and undoubtedly deliver lie after lie in an unpatriotic act to attempt to discredit John Kerry and deceive the American public into believing that Bush will be better for this country. This form of public slander shows how low some wealthy corporations will go to keep their puppets in power. Sinclair is exercising no social responsibility and needs to be brought to heel by the FCC and be regulated to prevent this form of abuse of power. I demand that the FCC stop Sinclair from acting in this intended manner.
